

EMBOSSING WORLD

::: ASK FOR THE IMPOSSIBLE

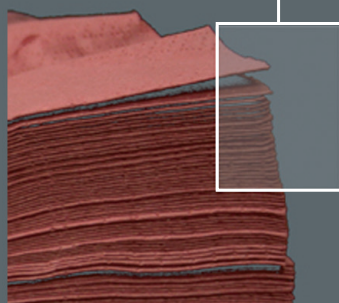

1) UNIFORMING PACKAGES REDUCE,
IN A SIGNIFICANT WAY,
STORAGE SPACES.

2) EMBOSSING WORLD'S PIN-TO-SEMI FLAT
BORDER EMBOSSING ROLLS ALLOW
TO OBTAIN LOW VOLUME PACKAGES.

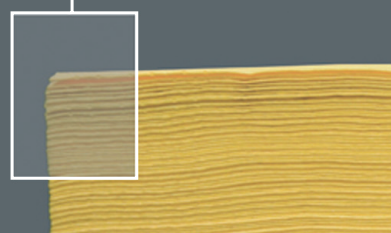

3) IN THE PAPER CONVERTING INDUSTRY
(PACKAGING, STORAGE,
LOADING AND UNLOADING)
SAVING UP STORAGE SPACE MEANS
TO "WIN" MONEY!

::: BAD EMBOSSING PROCESS

CORRECT EMBOSSING PROCESS :::

NEW REVOLUTIONARY ENGRAVING TECHNOLOGY CALLED "HALF-PIN-TO-FLAT" AND "QUARTER-PIN-TO-FLAT" IN ORDER TO OBTAIN PERFECT UNIFORM BORDER NAPKIN PACKS

Is your goal to manufacture high quality border paper napkins (2-3-4 plies) without the unpleasant "bulky" effect between border embossed area and flat area? **WE KNOW HOW TO HELP YOU..**

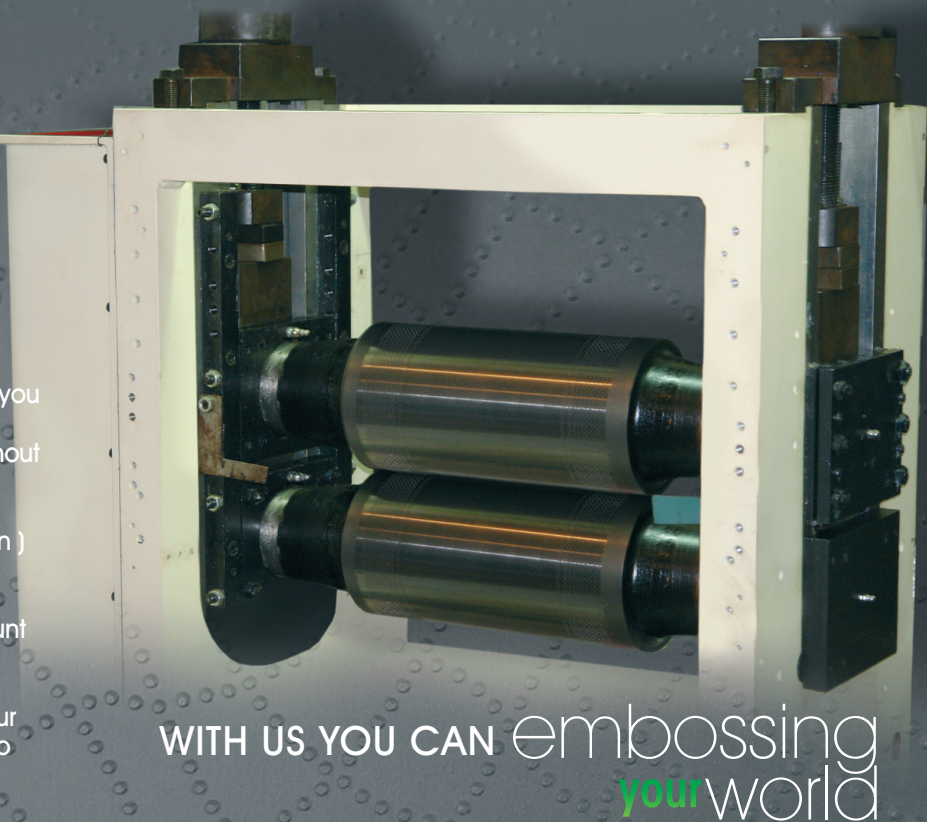

Our revolutionary engraving technology system makes work much easier and allows you to obtain **PERFECT UNIFORM BORDER NAPKINS PACKS!!!!!!**

Our rolls are always "on the run"

Deep hardened matched steel embossing rolls with at least 4 mm effective hardening depth and up to 63 HRC. First female roll is engraved with state-of-the art engraving technology, then male roll is coupled perfectly obtaining excellent embossing phase between rolls. Additionally surface treatments and special grinding process finish our production work.

Your benefits in a few words:

- Perfect uniform border napkins packs in 2-3-4 plies just changing your steel embossing rolls made by EMBOSSING WORLD
- Very good plies adhesion with white, colored paper and printed paper
- Long durability of rolls
- Our skilled technical people will help you in setting-up the steel embossing rolls, giving you the possibility to "sleep" without any problems
- Better performance (less breaks-down) of wrapping machines
- Less use of packaging film (big amount among all year..)
- Much numbers of napkin packs in your carton box means MORE PRODUCTS to your customers at the same transportation cost!

WITH US YOU CAN **embossing**
your world

Please feel free to contact us anytime for detailed information! It will be our pleasure to demonstrate our revolutionary engraving technology "HALF-PIN-TO-FLAT" and "QUARTER-PIN-TO-FLAT" largely widespread both into converter machine manufacturers and into the biggest paper converters.
You will be positively surprised!
